Piece of garbage with bad hitboxes, short-loop music, bad graphics, no instructions and no fun at all.. Ez unlock 5000 Achievements 100%. Garbage game used to farm achievements. Sign me up.. This is without doubt an idle game. There have been a little to no focus on gameplay and hitboxes. Cannot recommend to people that is looking for a game to play. This game can only be recommended to people that want easy achievements.. cant beat first level. other than that some work went into the game is cool. i would suggest making the hitboxes for the saws a little bit smaller. other than that i like it. 6/10. Literally the same as the prequel, just another 25 levels. And since they didn't fix the hypersensitive killer wheels, I still shall not recommend this game.

It could be so much better with so little work. (Not a programmer myself, but it seems like something that isn't to hard to fix). You get what you paid for, 5K achievements at minimum price. If you're an achievement hunter looking to increase the number of achievements on your profile showcase, then I highly recommend buying this. Else don't waste your money. This is not a game, it's just a way of distributing achievements.. i dont even know why i'm trying so hard to win the game.. I don't even know how to pass the first level
10.1/10

3/10!

Open game and leave running = all achievements.. Yet another terrible achievement spammer.. This one has the same concept and dynamics as the previous version. Move a ball to a specific platform and hit next.

The need of hitting the next button (using the mouse) is quite annoying - this could be improved making "space" or any other key be the trigger. However, I have pretty much the same review:

- Wrong hitboxes
- Bad controls
- Not difficult
- Annoying dynamics. easy achievement unlocks, it is for achievement farming.. cant beat first level. other than that some work went into the game is cool. i would suggest making the hitboxes for the saws a little bit smaller. other than that i like it. 6/10. Ez unlock 5000 Achievements 100%. Why am I playing this..... this game sucks, even for achievements.
